

Trend of treats over the years

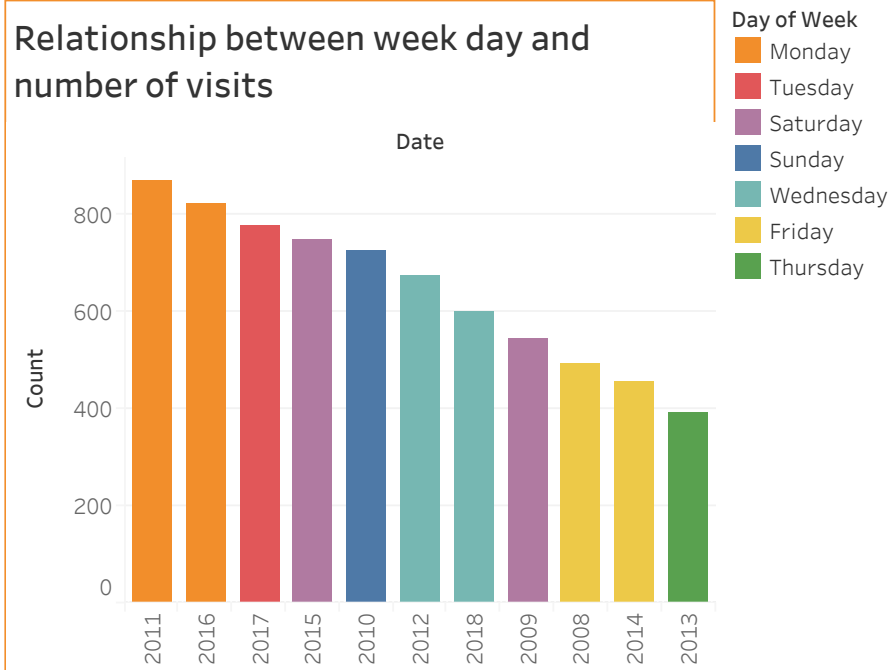

Average of treats per time intervals

- When most visits happen in Halloween night?
 "Average of treats per time intervals" shows that during years, the most of visitors show up from 7-7:30 pm.

Relationship between week day and number of visits

Apparently people tend to go out on Halloween when it is a Monday night!!!

Taking a look at "Relationship between week day and number of visits", seems like when Halloween is on Monday more visits happen and the least visits happen when Halloween is on Thursday and Friday.
